Background:

Purchase Contracts and Competitive Bidding by Local Governments

Local governments generally are allowed to purchase materials, supplies, and equipment below a certain dollar value without following a competitive bidding procedure. Formal competitive bidding procedures must be followed for purchases above a certain dollar value, with exceptions for emergency purchases and sole source purchases.

"Vendor List" Purchasing Contract Procedure

Legislation was enacted in 1993 establishing a uniform vendor list procedure for a number of different types of local governments to award medium dollar valued contracts for purchasing materials, supplies, equipment, or services.

A vendor list is established by publishing a notice, at least twice a year, soliciting vendors for inclusion on the list and initiating procedures for securing telephone or written quotations from at

least three different vendors on the list. The purpose of this process is to ensure that a competitive price is established and the award is made to the lowest responsible bidder.

Requirements for Small Value County Purchasing Contracts

State law requires that a county must dispense with the formal bidding process and, instead, use the uniform "vendor list" contracting procedure for purchases of between two thousand five hundred dollars and twenty-five thousand dollars.

The county legislative authority is given broad discretion with respect to purchases of less than two thousand five hundred dollars and no specific procedures are required by statute.
